

Mission Search Installation Instructions

1 What you'll need

- Microsoft[®] Windows[®] 10
- 63MB of disk space
- Personalized license file (signature.lic)

2 Local or Remote installation?

Identify the machine on which the Mission Search application will be installed. If this machine has a connection to the Internet, follow the "Remote" instructions below. If the machine is not connected to the Internet, follow the "Local" instructions below.

2.1 Local

2.1.1 Download

From a machine connected to the Internet, download "MissionSearchInstall_I.zip" from the following link:

https://www.getmissioncontrols.com/software/MissionSearch/release/MissionSearchInstall l.zip

2.1.2 Transfer and Extract

Transfer this file to the machine on which the Mission Search application will be installed and extract all files in the zip.

2.1.3 Kick off the Installation

On the machine selected for installation, in the "Mission Search Local Install" folder, double-click "MissionSearchSetup_I.exe". Skip to section 3 Install.

2.2 Remote

2.2.1 Download

Download "MissionSearchSetup_r.exe" from the following link: https://www.getmissioncontrols.com/software/MissionSearch/release/MissionSearchSetup_r.exe

2.2.2 Kick off the Installation

On the machine selected for installation, double-click "MissionSearchSetup_r.exe".

3 Install

3.1 Pre-requisites

If prompted to install the Visual C++ "14" Runtime Libraries (x64), select "Install". Please note that a reboot may be required.

Mission Search Setup	×
The following components will be installed on your machine:	
Visual C++ "14" Runtime Libraries (x64)	
Do you wish to install these components?	
If you choose Cancel, setup will exit.	
Install Cancel	

3.2 Mission Search

3.2.1 Security Warning

If prompted that the publisher could not be verified (may occur during remote installation), select "Run".

3.2.2 Installation Wizard

Click through the setup wizard to install the application.

3.2.3 Licensing

Double-click on the desktop shortcut for the Mission Search application.

When prompted to load a license file, click "Yes".

Select the "signature.lic" file that you received from Mission Control Systems.

When a valid license is loaded, the application will open and be ready for your first search.

Search String:		
Output Format:	Web Page (HTML) O Spreadsheet (XML)	
Output File:		
	Start Search Open Report	

If you did not receive your personalized license file from Mission Control Systems or your license is not working, please contact support at: software@getmissioncontrols.com

software@getimssioncontrols.com

Include the following information in your message:

- Your name
- Contact information
- Company name
- Name of application you are installing
- In your documents folder, there should be a file with information regarding the licensing issue. The file will have a name in the format "MCS_[Application]_license_error_[Date/Time].txt", indicating the name of the application and timestamp when the issue occurred (e.g. "MCS_Mission Search_license_error_20210213154024.txt"). Please attach this file to your message.
